INFANTICIDE among children under sixteen years of age, in this State, will be unknown in the years to come, if the new law regarding consumption is lived up to as it should be. The Compulsory Educational Act makes it necessary for every child between the ages of eight and sixteen years to be able to read and write.

A DISPATCH from Kansas City says general alarm exists throughout the Southwest, owing to persistent rumors of a Seminole Indian outbreak. The stories vary from threating war dances to massacres in which many settlers are said to have been killed. The recent burning of two Seminoles at the stake for murdering a white man, is said to be the cause of the trouble.

THE Republican factional fight in Ohio, may prove beneficial, in that good results in legislation may follow. The Lower Branch of the Legislature has already passed by a unanimous vote, a bill repealing the law granting 50-year franchise to street railways, enacted two years ago at the instance of Marc Hanna and other corporation chiefs. Other bills of a similar anti-monopoly character are pending.

THE long bitter fight against Boss Hanna in the Ohio Legislature virtually came to an end Tuesday when it was ascertained that Senator Hanna had one vote to spare. This will send him back to the Senate, but the closeness of the contest will without doubt serve as a warning to the boss. He probably realizes by this time that the American people are not willing to be ruled by every man who has an enormous bank account.

EX-PENSION COMMISSIONER MURPHY, is opposed to the publication of the entire pension roll by the Government, because of the large expense, but he thinks it would be productive of good results to furnish the newspapers with the complete list of all pensioners within the radius of their circulation. When Mr. Murphy was in charge of the office, all newspapers that applied for lists of pensioners in their localities were promptly accommodated. This is why should be. There is no excuse for having a secret pension roll. A man who is ashamed of his pension should not receive one.

THREE students of the Chicago University have recently died from starvation. Millions of dollars have been given by rich men to this institution, yet there is no place in the district surrounding the University, where a young man of limited means can get cheap, suitable and nourishing food. There are a number of so-called boarding houses near the University, but as the students in many instances, are poor young men, they are compelled to patronize these places, paying them $5 and $5.50 a week for the accommodations received. The three deaths were due, not exactly to starvation, but malnutrition.

THE Administration has put itself in a position to get a new batch of trouble, by meddling in the contest among the Maryland Republicans over the election of Senator Gorman's successor. It was supposed that when the Administration ascertained that it could not force the election of Postmaster-General Gary to the Senate, it had dropped out and decided to allow the Maryland Republicans to elect their own Senator, but that was only supposition. Within the last week the Administration has openly shown its advocacy to Judge McLennan, and has even induced Mr. Lowndes to withdraw in favor of McLennan.
